(inc. taxes)

Beyond Silence: Voices of Childhood Sexual Abuse

is a collection of stories, poems, and images by fourteen Island women in a labor of love for the children they were and for children today, everywhere. Beyond Silence is a response to the knowledge that many children are frightened in their own homes or in other familiar environments with people they most trust.

Knowing this, the authors of Beyond Silence take a fresh approach to the ongoing work of childhood sexual abuse prevention by focusing on their knowledge and wisdom as adult survivors. The stories are raw and real, honest and terrifying, and they are living examples of what adults can do to protect children. The women dig into the darkness of the past so that others may see the light. They refuse to be silenced and they're determined to make a difference.
